NIDDAAN VAN

Mobile Diagnostic Van for TB

ABOUT US

Deepak Foundation is committed towards the upliftment of the society for the last 40 years. As one of the leading non-profit organizations in Gujarat with rapidly growing Pan-India presence, the Foundation thrives to empower the underprivileged and unreached communities in India. Our activities impact over 4,00,000 lives annually. The Foundation is registered under the Bombay Public Trust Act, 1950.

BACKGROUND

According to Global TB Report 2021, an estimated 9.9 million people fell ill with TB globally in 2020 and India carries an estimated 26% of the global TB burden. In 2020, TB caused 1.3 million deaths globally, of which India accounted for 34%. India's National TB Elimination Programme (NTEP) aims to meet the ambitious goal, announced by the Honourable Prime Minister Shri Narendra Modi, of meeting TB related SDG targets by 2025, five years ahead of the UN Sustainable Development Goals (SDG) of 2030.

Deepak Foundation in collaboration with Deepak Group launched Nidaan Van on March 18, 2023 to provide TB screening by using x-ray in remotest areas of Gujarat, Maharashtra and Madhya Pradesh.
